ECICS was set up in 1975 by the Singapore government to encourage and support the growth of export. ECICS was eventually privatised and is now a full subsidiary of IFS Capital Limited, a public listed financial group on Singapore SGX board. Its ultimate parent company is PhilipCapital Group which is one of the largest financial institutions in Singapore.

In 2013, ECICS became a fully licensed general insurer under the approval of Monetary Authority of Singapore. This has allowed ECICS to underwrite a full range of general insurance business product lines.
